*"Architect of dance floors. Builder of arcs.
Toronto's underground electronic voice."*

BIOGRAPHY

Atmosphere By Design

Pankaj Brijlani is a Toronto-based DJ operating in the darker, more architectural end of electronic music. Rooted in Tech House and Melodic Techno, with detours through Afro House percussion and the emotional warmth of Deep House, every set is engineered as a journey — not a playlist.

Sets are built with long arcs and deliberate momentum. Hard-edged grooves giving way to atmospheric tension, organic swing providing rhythm, and warmth anchoring the low end. The through-line is always forward motion and a clear emotional arc from open to close.

*"The space between notes is where music lives.
Build the arc, earn the drop, let the room breathe."*
